

Triamant

Geluwe (Belgium)

Triamant brings together people with and without care needs in a nice, fully adapted environment with 120 apartments and studios. In this welcoming, lively Triamant neighborhood anyone (young and old) can recharge their batteries and spend a short or long period of their life. Important is the assurance of professional customized care - around the clock.

HIDDEN, the design label of Haelvoet, furnished the model flats and took the relaxation room and cafeteria on its behalf. The bed rooms were equipped with HILO box spring beds with matching bedside tables. Comfortable seats brighten up the relaxation area.
